SUMMARY:

I'm a student at the Faculty of Computer Science and Cybernetics, Taras Shevchenko National University of Kyiv, with a strong foundation in mathematics, data analysis, and machine learning. I have hands-on experience with Python, C#, SQL, and backend development, and I enjoy building data-driven solutions and intelligent systems. Motivated to apply my skills in real-world projects and contribute to innovative ML/AI and software engineering initiatives.

PROFESSIONAL SKILLS:

Machine Learning & Data Science:

Supervised & Unsupervised Learning, Tabular Data ML, Dimensionality Reduction, Ensemble Methods, Deep Learning (Tensorflow)

Databases & Tools:

SQL Server, PostgreSQL, Git, Docker, PowerBI, UML

Programming Languages:

Python, C#, SQL, C++

Backend Development:

C#, ASP.NET Core, Entity Framework, REST API design, clean architecture

PROJECTS & EXPERIENCE:

US Roadworks Knowledge Discovery – Data Analysis & ML Project

- Analyzed 6.2M+ U.S. roadwork events and built interactive dashboards (Python, Power BI)
- Developed predictive models for event severity, duration, and distance (Regression, XGBoost)
- Applied PCA & K-Means for dimensionality reduction and clustering
- Discovered association rules to optimize processes

Match Outcome Prediction – Personal ML Project

- Built classification models using logistic regression, decision trees, and ensemble methods
- Developed preprocessing pipelines and evaluated models with cross-validation

PetCare App – Mobile Application

- Managed pet data, medical history, and reminders
- Developed with ASP.NET Core Web API, Identity, EF Core, PostgreSQL, JWT, Swagger
- Unit testing with xUnit; UML diagrams for architecture

Referee Management System – Web Application

- Streamlined referee and tournament management
 - Built with ASP.NET Core MVC, Identity, EF Core, MS SQL Server
 - UML diagrams and xUnit testing
-

EDUCATION:

Taras Shevchenko National University of Kyiv – MSc in Computer Science (Mathematical Methods of Artificial Intelligence) (Sep 2025 – Present)

- Ranked top-13 nationwide in Ukraine's Master's entrance exam (2025), including top-10 in IT subject test (ЄФВВ)

Taras Shevchenko National University of Kyiv – BSc in Computer Science with Honours (Sep 2021 – May 2025)

- GPA: 94.95/100
-

COURSES:

- **Machine Learning Specialization – DeepLearning AI**
 - **Deep Learning Specialization – DeepLearning AI**
 - **Mathematics for Machine Learning Specialization – Imperial College London**
 - **DeepLearning.AI TensorFlow Developer Professional Certificate – DeepLearning AI**
 - **Python for Data Science, AI & Development – IBM**
 - **Visualizing Data with Python – IBM**
 - **SQL for Data Science – University of California, Davis**
-

VOLUNTEERING / TEACHING EXPERIENCE:

Jury Member, Mathematics Olympiad

Department of Education and Science, Kyiv Regional State Administration (Sep 2021 – Oct 2025)

- Jury member at mathematics olympiads of various levels (city, regional, national).
- Reviewed and graded students' solutions, ensuring accuracy and consistency in evaluation.

Summer Physics & Mathematics School, Vinnytsia (Guest Lecturer & Jury Member)

- **Aug 2025** – Delivered the course "Introduction to Artificial Intelligence and Machine Learning" for 60 STEM Olympiad winners, covering AI fundamentals, ML methods, and real-world applications.
- **Aug 2023 & Aug 2024** – Delivered lectures on Mathematical Logic and Boolean Algebra for high school Olympiad students.

Covered: propositional logic, truth tables, Boolean algebra laws, canonical forms (CNF/DNF, PCNF/PDNF), logical function simplification methods, and applications in CS & digital circuits.
